Neighbourhood Plan Steering Group (NPSG) Report to Parish Council 4th September 2023 — delivered by Richard Edwards

NPSG meetings since the last PC meeting on 3rd July were on 18th July and 15th August. Matters discussed and arising since as follows:

Steering Group Membership:

Gill Cox was elected on to the Steering Group at our July meeting. Sadly, at the same meeting we learnt of the loss of long-standing SG member and Vice Chair, Anuran Wickramasinghe who is moving out of the Parish. John Miller was elected to the role of Vice Chair.

Meeting Attendance:

We were pleased to welcome Simon Johnson at our July meeting, where we also had 10 members of the public present as guests. With 4 guests also present in August, we are pleased by the increased interest and believe those attending have left meetings happier and with a better understanding of the NP and the work being done.

Funding:

Government funding for 2023-24 for the Neighbourhood Planning Support Programme was eventually made available on 24^{th} July. We have applied for grant funding, comprising £400 from last year's return and the additional and final £8,000 we are eligible for. We are still awaiting news on the success of our application. The funding situation has set back our programme probably by 3 months.

Meeting with SGC at Yate 6th July:

Members of the NPSG had a positive meeting with Strategic Planning. Unfortunately, other departments who could talk about SGC land assets could not attend. Discussions focused on solutions for flood risk and Green Belt that would be required before reaching the Regulation 14 consultation. SGC put us in contact with consultants JBA who have worked with them on strategic flood risk including on the latest issue of SGC's Flood Risk document. We await their response following a Teams meeting on 9th August. For Green Belt we aim to engage with consultant Stuart Miles. We have drafted summary specification documents for our position for both flood risk and green belt to help the consultants once they are able to start work when we have the necessary funding.

Since our SCG meeting, they responded on 16th August with a schedule of information on our potential sites using both their Housing and Economic Land Availability Assessment (HELAA) and comments from other departments.

Evaluation of Sites:

With the need to find the strategic solutions for flood risk and Green Belt the Steering Group has scaled back its activity on evaluation of individual sites except where availability has not been clear or where we have been contacted by landowners or their agents. There is now only one site, potentially for parking, in New Passage, where we have been unable to engage with landowners.

The NPSG raised an objection to and attended the SGC planning committee meeting for the planning application for the traveller site on the corner of Bank Road and Northwick Road. We were very disappointed by the approval outcome and the impact this may have on the objectives of the NP for Pilning. The planners and councillors, with one notable exception, were not prepared to consider the progress the NP has made and granted approval against Green Belt policies on the basis of fear of an appeal if they rejected it. On this basis, the Parish is at great risk of any similar future applications

being approved. Whilst provision of traveller sites was declared outside the scope of the HNA, both the NP and the Parish should consider options for mitigation of this risk. One positive thing to come out of this case is we at least know who the landowner is and can approach them directly.

For the railway sidings land SB, we have had separate Teams meeting with SGC Transport Planning and the landowner. We are trying to arrange a combined meeting and discussions with network rail.

We have had correspondence from two landowners in Pilning in connection with potential windfall sites, one of these we have already received a call for sites form, the other is new and we anticipate receipt of a form shortly.

Public Engagement

The Steering Group had a stand at the Severnside Festival on 8th July and at Pilning Flower Show on 26th August. Concerns by residents living close to potential changes, as well as speculation circulating on social media around loss of community amenities continue to be common themes.

Planning Applications:

We are now receiving our own notifications and continue to review relevant applications at our meetings. In our August meeting an application for changing two bridges over rhines to culverts was reviewed. It was considered that the principle of culverting rhines and potential for reduction in maximum water flow and issues in long-term keeping them clear should be raised by the Parish Council to ensure it is considered by the drainage board.

Parish Council Meeting Minutes:

At the July meeting it was agreed that the PC meeting minutes should record, in attendance, the presence of the person who was representing the Neighbourhood Plan, so that the public can see that we were present. This was not done in the July minutes.

Next SG meeting 19th September 7pm.

Thank you and any questions.
