

Odile Mcintosh
Cemetery Clerk

Otherwise known as Del, my role as Cemetery Clerk started in 2018 when I was asked to introduce new policies, a transparent pricing structure, an online burial search facility, and re-draw all the burial maps making the records clearer for many years to come.

Although I do not live in Pilning, I moved to Bristol/South Glos over 39 years ago and I am often seen walking around the burial sites.

I am married with two offspring; my son is all grown up and my daughter is in secondary school.

My dedication to bereaved families stems back over 25 years when I started out in the Funeral Industry. In 2003 I qualified as a Funeral Director and embarked on an exciting career, my experience is vast and stems from in burial law, exhumations, repatriations, embalming, probate law through to memorials.

I like to make sure all families are treated with great respect; dignity and I am driven to make sure that everything runs smoothly at a very difficult time. Although this is an additional role to my full-time job, I am always happy to provide support where I can.
